YPSILANTIAN'S "HOME AGAIN" FROM DIFFERENT PARTS OF THE WORLD

MEETING MOST ENJOYABLE

Home Comers Pleased With Last Night's Program

AUDIENCE WAS LARGE, TALKS WERE FINE AND THE MUSIC WAS ESPECIALLY GOOD.

Last night's Home Coming meeting at the opera house was one that a person good and glad to be present glad that they were Ypsilantians or had been at some time in the past. The stage was beautifully decorated, and looks prettier than it ever did before. The singing of the Conservatory quartet was of such a quality that more than repaid all those who heard it and it was appreciated as shown by the encores. Kilian's orchestra just fitted in nicely and played a few selections that pleased the large audience present. It was called to order by Mr. Robert Hemphill, Jr., who introduced Mayor Gaudy as chairman of the evening. Mr. Gaudy presided in his usual graceful manner. He welcomed the guests of the city in a few well chosen words and hoped that all would enjoy their visit here. In the audience and on the stage there were many who knew a great deal of Ypsilanti, and all enjoyed the different talks.

One of the features of the evening was the reading of an original poem, which is given below, by Mrs. Laura A. Whitmore, of Boston, written expressly for this occasion. It was as follows:

PROLOGUE.

Written for Home Coming.

Lonely and longing for the joys of home,
And sick at heart for faces out of sight,
A wanderer in foreign lands afar
Often wrote the touching words so
"Home! home, sweet home!
There is no place like home."

And all the world has loved the singer since,
For to each human heart his message comes
With thoughts of blessedness and peace and rest
No other song can give. Thy thrilling notes,
O, gentle Howard Payne, are healing balm,
That fall on wounded hearts to ease their woe;
And never dearer loved than when we roam
From that fair haven that the heart calls home.

How often as in foreign lands I've strayed
Some slightest token has brought thoughts of home
So tender that my soul was overwhelmed,
My spirit bowed as if beneath a weight
Of love, sorrow, blended into one.

A sound, a fragrance o'er the senses stealing,

live in song forever.

"O could some gifted bard arise
To sing this river's glory,
To laud its beauty to the skies,
It, too, might live in story."

The Huron answered with a laugh,
"What need have I of glory?
I at the fount of music quaff,
And sing my own sweet story."

Through all the nights, and all the days,
Through every kind of weather,
What need have I of human praise
Who sing and laugh together?

For when all songs of men are gone,
In deep oblivion buried,
To music still I'll journey on,
My own glad tune unvaried."

"If you are such a bard," said I,
"No greater in the nation,
A little song I wish you'd try
To fit our celebration."

You gather in Ann Arbor town
Full many a bright reflection,
To Ypsilanti pass them down
For critical inspection.

She has the University,
And we the Normal College;
To us 'tis very plain to see
Our's better rhymes with knowledge.

So many lovers of your fame
Will soon be crossing o'er you,
Will stop to murmur your dear name
And say how they adore you;

Have you not in your repertoire
Some little song to greet them?
For when they bid you an adieu
You never more may meet them."

Quite tremulous, the stream ran on,
In demi-semi quavers,
"When first they crossed in days long gone
Some were but little shavers;

And some were maidens glad and gay,
With youthful swains to beau them,
Now older grown—perhaps turned gray—
I'm sure I scarce should know them."

But then they listened to my tunes
With proper sort of feeling,
The music of my rhymes and runes
Through all their senses stealing."

I said: "To-day they come again
To seek the friends they knew here;
Fear their search will be in vain
There are so very few here."

Of all the friends they used to know,
Through man and nature ranging,

The stream then sang a song for me;
Not here to be translated,
Since for each lover's ear must be
A separate song created.

And long I listened to the strain,
'Twas sweet as voice of linnet,
But glad with joy, or sad with pain
Like face reflected in it.

And thus 'twill sing to you to-day,
Just as you look and listen,
A song of May, if you are gay,
A dirge if tear drops glisten.

And tears will fall when we recall
The many dear departed,
The weak and small, the strong and tall,
The gentle, the stout-hearted.

Who in the days of long ago
Shared all our joys and sorrows,
And deemed with us the journey slow
Toward all the bright to-morrows.

But smiles will rise, as o'er the skies
Flashes the morning splendor,
When, with surprise, our gladdened eyes
Behold the radiance tender,

In eyes alight with joyous flame
Each well known face adorning
That still proclaims, love is the same
As in youth's happy morning.

And here we see one well loved face
One ready hand to greet us:
Professor Putnam, by God's grace,
Is still at home to meet us.

As years fly fast, oh, to the last
May gentle airs caress him;
In loving hearts we'll hold him fast
And sing for aye, "God bless him."

"Home Coming," thus the message read
That set our hearts fast beating;
"Home Coming," o'er and o'er we said,
The blessed words repeating.

"Home Coming," dearest words of all
While o'er this earth we wander!
We thank you kindly for the call,
Its meaning deep would ponder.

There is a stream that wider flows
Than rippling Huron river;
Between the earth and Heaven it goes,
The now, and the forever.

When called by Love to cross that stream
To higher, nobler station,
How can the heart of mortal dream
Diviner invitation?
LAURA A. WHITMORE.

Dr. Putnam's Address.
Dr. Putnam, the venerable and beloved Normal professor, gave an exceedingly interesting and instructive address, and one which caught the large audience. He said it had been many years since he had spoken from the stage and went on to relate many interesting anecdotes. He called to mind the time when he moved here from Kalamazoo, and said Ypsilanti suffered in comparison at that time, but not now. Speaking of the old sheds that used to adorn Congress street he said it made a great improvement when they were pulled down. When he first saw them they looked so peculiar. He thought they should have been at the back of the houses, not in front. The speaker jollied our "City Hall" and said it was one of the wonders of his time, why it was built where it was and that wonder still remains, and probably always will. Talking of some of the nuisances of years gone by he said it was the cows; that had been done away with, and now it was the hens, but he was sure it was only a matter of time when that would be regulated. Dr. Putnam then became serious and talked on municipal ownership, referring to the city's electric light plant. He told of the

fine speech, as did Capt. E. P. Allen. Norman W. Batchelder, of New York, said he came here in response to invitation received and was glad of it. He had a great attachment to Ypsilanti, but if it had not been for Home Coming he hardly thought he would be here. He said the young men he knew thirty years ago were now a little scant on hair, that even the streets had changed and he could not recognize them. The city could be congratulated on the many improvements made which were more noticeable to one who had been absent than the one who had always lived here. It was anticipated that Mr. Cuyler Coy, the first white boy born in Ypsilanti township, and Mrs. Eliza Fleming O'Connell, the second white girl born in Washtenaw county, would be present, but they could not attend. Interspersed with the different talks, the Conservatory quartet sang as only they can, and when the audience dispersed every one was pleased with the opening of Ypsilanti's first Home Coming.

RUSSIANS GAVE WAY TO YAMATAKES TOWNS IN KOREA before Accepting a Battle.

Moscow, June 22.—A great open air prayer service for a victory for Russian arms will occur on the "Red Square" under the walls of the Kremlin June 23.

Tokio, June 21.—It is officially announced that a Japanese detachment in Northern Korea completely occupied Kangsang on Tuesday. A few thousand Russians, with artillery, retired towards Siasong, twelve miles northward.

The following official dispatch received from the headquarters of the Japanese army in Manchuria.

"In the direction of Welyuanpaomen our detachment occupied Lienhwa-chieh, June 18, without encountering resistance. It also occupied Yengmu-lintzu, twenty miles northwest of Welyuanpaomen and drove the enemy back on his positions on the Kirin road.

"Farther north another force the same day dislodged the enemy from Yangtzu Pass and the vicinity, ten miles north of Welyuanpaomen, and occupied a line of hills northwest of Shihulwotzu and those seven miles north of Yangtzu Pass. Our forces also routed the enemy holding positions north and northwest of the same place.

"Our force, advancing on the Feng-hwa road after a vigorous fight with infantry and artillery from 3 in the morning of June 19, dislodged the enemy from Peifangchengkou, ten miles southeast of Hsiliencian, and occupied at 8:40 the same morning Liutia-kou, sixteen miles north of Changtu."

ACCIDENT TO MARTIN COLE, A RESIDENT OF CANTON.

Nelson Cole, living at Canton, suffered a severe and possibly fatal accident yesterday. Mr. Cole had been driving a horse and colt in the field and on returning to the barn with the latter attempted to change the horse, when the horse reared and kicked him in the face, breaking his jaw and crushing his skull. An artery in the neck was severed and the danger is from this, as by stopping the flow there is danger of a clot forming on the brain, while the counter danger is

MARCHED TO MARTIAL AIRS

Streets Lined With People To Greet Gov. Warner and Party, FIRST INFANTRY MADE A SPLENDID APPEARANCE--- U. R. K. P. APPLAUDED.

This morning the city is looking its very best and the hundreds of visitors are enjoying themselves. The city is very prettily decorated, the merchants, citizens, high and low, having given a great deal of attention to little details. Every electric car brought in a load and at the time of this writing they are still coming.

On Congress and adjacent streets there is the greatest animation, the sidewalks being crowded with happy Home Comers waiting for the military parade.

The committee appointed by the mayor to go to Detroit to meet Gov. Warner and other distinguished guests, left on time and came back, arriving in Ypsilanti at 12:15.

The special train on the Michigan Central came in on time, and the troops looked fine in their military uniforms. On debarking at the Michigan Central depot Col. Kirk assumed command. The First Infantry band accompanied them, in its full strength, and will stay here until to-morrow night.

The company from Ann Arbor came in on a special car and with Company L, of this city, marched to the depot and joined the rest of the regiment.

The streets were lined with people, not only after they had formed, but all the way to Hamilton and Congress streets, where the parade was formed.

The Uniform Rank, Knights of Pythias, under command of Capt. Fred Wood, with the Chelsea band, marched to where the parade had formed, looking fine in their new uniforms. They were given a good hand along the line.

Merry Party at Luncheon.

A merry party sat down with the governor to luncheon at the Occidental at noon and Landlord Shuts made it very pleasant for all. In the party were Gov. Warner, Mayor Holmes, of Alpena; Hon. Alfred Lucking, of Detroit; Col. Leland, Mayor Todd, of Jackson; Chief of Police Doyle, of Jackson; Mayor Gaudy, Capt. E. P. Allen, Hon. Samuel Post, Dr. James M. M. Read, Frank T. Coddington, C. E. King, Postmaster Lister, Rev. Wm. Gardam and Robert Hemphill, Jr. After luncheon some of the above took a carriage ride around the city, but were back in time to join the parade.

The balloon will go up to-morrow at 4:30 p. m. standard at the corner of Michigan and Hamilton. The aeronaut has made two successful ascents. To-day's ascent, while not as high as yesterday's, was a good one, and the descent was safely made. Soon after cutting loose from the anchor a rip appeared in the apex of the bag. As soon as this was discovered the "King of Clouds" cut his parachute loose and made the drop, landing within a block of the place from where he started.

Hon. Samuel Post met with a slight accident in Detroit this morning, but to show his friends in Ypsilanti that he was all right he danced a jig in the Occidental hotel parlors.

DEEDS OF THE NEW CITY PARK

TURNED OVER TO CITY ATTORNEY FOR VERIFICATION.

Four Per Cent Bonds Will Be Issued to Pay for Them.

Even if the city is enjoying Home Coming city business is going on and the deal which was authorized in the purchase of the new park on Monday is being completed. Samuel Post was in the city this morning and turned his deeds over to the city attorney, who will investigate the title and have the new deed made out. The city will issue \$5,000 worth of bonds at 4 per cent, \$500 to be paid each year beginning in 1906. This will add but \$500 to the taxes each year and will amount to very little for each taxpayer. In fact, it will hardly be noticed.

The park will be an important factor in booming Ypsilanti. Conveniently located, it will be easily accessible, and will be part of a chain around the city. There are now belonging to the city four pretty parks, while the Normal park in the western part of the city has all the advantages of a public park to the residents on the hill.

The deal will probably be completed in a few days, as soon as the clear title can be established.

HEIFER ATE CLOVER AND THEN DRANK WATER.

Tanner Had But Little Use for Critter's Hide.

geles, Cal.; Mrs. Mary Martin, Los Angeles, Cal.; C. J. Murphy, Los Angeles, Cal.; C. C. Glover, Battle Creek; F. E. Marvin, Detroit; Ira S. Thompson, Chicago, Ill.; J. S. Royce, Sault Ste. Marie.

At 2 o'clock this afternoon the Daily Press representative was unable to see the registration book on account of there being so many around it waiting a chance to affix their signatures. Since above list was copied there are probably as many more.

DECORATIONS TORN DOWN BY YOUNG VANDALS.

C. L. Yost is justly angry this morning over the act of vandals, believed to be young boys and girls. He had his store on Washington street prettily decorated, but this morning there was nothing left. Edward Dolson said he took a flag way from a little boy, whose bigger companion escaped. They had just torn down everything, even tearing the awning in doing so. Mr. Yost says he will give \$5 for the arrest and conviction of the miscreants and Robert Hemphill, Jr., said he would give another \$5. One other citizen said he would gladly donate a good spanking.

So tender that my soul was overwhelmed,
My spirit bowed as if beneath a weight
Of love, sorrow, blended into one.

A sound, a fragrance o'er the senses stealing,
A bird, a blossom touch the chords of feeling;
A giant tree that casts its graceful shadow
Like one well-loved in childhood's happy meadow.
Or purling brook that winds among the grasses
Like one we played beside when lads and lassies.

A river winding onward toward the sea
Brings thoughts of Huron stream to you and me.
And, so, since to us all this stream is dear,
A ballad of the Huron you shall hear.

I late by Huron's bank did sit
And watched the river flowing,
And vainly searched for words to fit
The music of its going.

"The Huron stream," I cried, "is fair
As many a famous river;
Yet braes of Doon and banks of Ayr

"O could some gifted bard arise
To sing this river's glory,
To laud its beauty to the skies,
It, too, might live in story."

The Huron answered with a laugh,
"What need have I of glory?

In deep oblivion buried,
To music still I'll journey on
My own glad tune unvaried."

"If you are such a bard," said I,
"No greater in the nation,

I said: "To-day they come again
To seek the friends they knew here;
I fear their search will be in vain
There are so very few here.

Of all the friends they used to know,
Through man and nature ranging,
Not many now are left to show,
So swift has been the changing.
The city climbing o'er the hill,
And crowding through the valley,
Cannot their heart's affections fill,
Will not with memory tally.

And faces long since loved are changed,
Or passed beyond forever;
They'll find no more the fields they ranged,
No never, ah! no, never.

'Tis you alone with old time grace
Can welcome them, dear river,
You wear the very self same face,
Forever and forever.

So, wet your pipes, set every reed
Along your banks a-quiver,
'Twill be the very thing they need,
A song from Huron River.

They'll all be looking every way
To find some friend to cheer them,
And answer back with glad 'Hooray!'
So loud that you can hear them."

"Twas as voice of my linnets,
But glad with joy, or sad with pain
Like face reflected in it.

And thus 'twill sing to you to-day,
Just as you look and listen,
A song of May, if you are gay,
A dirge if tear drops glisten.

And tears will fall when we recall
The many dear departed,
The weak and small, the strong and tall,
The gentle, the stout-hearted.

And deemed with us the journey slow
Toward all the bright to-morrows.

Flashes the morning splendor,
When, with surprise, our gladdened eyes

In eyes alight with joyous flame
Each well known face adorning
That still proclaims, love is the same
As in youth's happy morning.

And here we see one well loved face
One ready hand to greet us:

Is still at home to meet us.

As years fly fast, oh, to the last
May gentle airs caress him;
In loving hearts we'll hold him fast
And sing for aye, "God bless him."

"Home Coming," thus the message read
That set our hearts fast beating;
"Home Coming," o'er and o'er we said,
The blessed words repeating.

"Home Coming," dearest words of all
While o'er this earth we wander!
We thank you kindly for the call,
Its meaning deep would ponder.

There is a stream that wider flows
Than rippling Huron river;
Between the earth and Heaven it goes,
The now, and the forever.

When called by Love to cross that stream
To higher, nobler station,
How can the heart of mortal dream
Diviner invitation?

LAURA A. WHITMORE.

Dr. Putnam's Address.

Dr. Putnam, the venerable and beloved Normal professor, gave an exceedingly interesting and instructive address, and one which caught the large audience. He said it had been many years since he had spoken from the stage and went on to relate many interesting anecdotes. He called to mind the time when he moved here from Kalamazoo, and said Ypsilanti suffered in comparison at that time, but not now. Speaking of the old sheds that used to adorn Congress street he said it made a great improvement when they were pulled down. When he first saw them they looked so peculiar. He thought they should have been at the back of the houses, not in front. The speaker jollied our "City Hall" and said it was one of the wonders of his time, why it was built where it was and that wonder still remains, and probably always will. Talking of some of the nuisances of years gone by he said it was the cows; that had been done away with, and now it was the hens, but he was sure it was only a matter of time when that would be regulated. Dr. Putnam then became serious and talked on municipal ownership, referring to the city's electric light plant. He told of the progress of the city, of the growth of the electric roads and he looked for more improvements in the future than in the past.

The doctor's remarks were heartily applauded. Roosevelt's Picture Received Applause
Mayor Gaudy then called attention to the invitations that had been sent out and the beautiful photograph of President Roosevelt was shown. When it was placed on the stage it evoked great enthusiasm. Frank T. Codrington read some letters of regret, including the beautiful one from the Ypsilanti family, after whom the city was named. This has already been printed in full in the Daily Press. There were several others, all expressing the same sentiment, that they were sorry they could not be here in person, although their hearts were with us.

ACCIDENT TO MARTIN COLE, A RESIDENT OF CANTON.

Nelson Cole, living at Canton, suffered a severe and possibly fatal accident yesterday. Mr. Cole had been driving a horse and colt in the field and on returning to the barn with the latter attempted to change the bridle, when the horse reared and kicked him in the face, breaking his jaw and crushing his skull. An artery in the neck was severed and the danger is from this, as by stopping the flow there is danger of a clot forming on the brain, while the counter danger is from choking to death by the blood in the throat.

Mr. Cole is a highly respected farmer and has many relatives in the city.

Coming he hardly thought he would be here. He said the young men he knew thirty years ago were now a little scant on hair, that even the street had changed and he could not recognize them. The city could be congratulated on the many improvements made which were more noticeable to one who had been absent than the one who had always lived here.

It was anticipated that Mr. Cuyler Coy, the first white boy born in Ypsilanti township, and Mrs. Eliza Fleming O'Connell, the second white girl born in Washtenaw county, would be present, but they could not attend.

Interspersed with the different talks the Conservatory quartet sang as only they can, and when the audience dispersed every one was pleased with the opening of Ypsilanti's first Home Coming.

OYAMA TAKES TOWNS IN KOREA before Accepting a Battle.

Moscow, June 22.—A great open air prayer service for a victory for Russian arms will occur on the "Red Square" under the walls of the Kremlin June 23.

Tokio, June 21.—It is officially announced that a Japanese detachment in Northern Korea completely occupied Kangsang on Tuesday. A few thousand Russians, with artillery, retired towards Siasong, twelve miles northward.

The following official dispatch received from the headquarters of the Japanese army in Manchuria.

"In the direction of Weiynanpaomen our detachment occupied Lienwachieh, June 18, without encountering resistance. It also occupied Yengmu-lintzu, twenty miles northwest of Weiynanpaomen and drove the enemy back on his positions on the Kirin road.

"Farther north another force the same day dislodged the enemy from Yangtzu Pass and the vicinity, ten miles north of Weiynanpaomen, and occupied a line of hills northwest of Shihuiwotzu and those seven miles north of Yangtzu Pass. Our forces also routed the enemy holding positions north and northwest of the same place.

"Our force, advancing on the Feng-hwa road after a vigorous fight with infantry and artillery from 3 in the morning of June 19, dislodged the enemy from Peifangchengkou, ten miles southeast of Hsieliencian, and occupied at 8:40 the same morning Liutakou, sixteen miles north of Changtu."

DECORATIONS TORN DOWN YOUNG VANDALS.

C. L. Yost is justly angry this morning over the act of vandals, believed to be young boys and girls. He had his store on Washington street prettily decorated, but this morning there was nothing left. Edward Dolson said he took a flag way from a little boy, whose bigger companion escaped. They had just torn down everything, even tearing the awning in doing so. Mr. Yost says he will give \$5 for the arrest and conviction of the miscreants and Robert Hemphill, Jr., said he would give another \$5. One other citizen said he would gladly donate a good spanking.

DEEDS OF THE NEW CITY PARK

TURNED OVER TO CITY ATTORNEY FOR VERIFICATION.

Four Per Cent Bonds Will Be Issued to Pay for Them.

Even if the city is enjoying Home Coming city business is going on and the deal which was authorized in the purchase of the new park on Monday is being completed. Samuel Post was in the city this morning and turned his deeds over to the city attorney, who will investigate the title and have the new deed made out. The city will issue \$5,000 worth of bonds at 4 per cent, \$500 to be paid each year beginning in 1906. This will add but \$500 to the taxes each year and will amount to very little for each taxpayer. In fact, it will hardly be noticed.

The park will be an important factor in booming Ypsilanti. Conveniently located, it will be easily accessible, and will be part of a chain around the city. There are now belonging to the city four pretty parks, while the Normal park in the western part of the city has all the advantages of a public park to the residents on the hill. The deal will probably be completed in a few days, as soon as the clear title can be established.

HEIFER ATE CLOVER AND THEN DRANK WATER.

Tanner Had But Little Use for Critter's Hide.

Three Rivers, Mich., June 22.—Jas. Shafer, living just south of this city, has lost several cows lately with clover bloat. The last one distinguished itself, however, by the abrupt and somewhat noisy manner of its demise.

It was a young heifer, and after eating a generous quantity of young clover, drank copiously from a cold spring. Just what chemical change took place inside the critter is not known, but the animal began to swell rapidly, and suddenly its owner was startled by a sharp report, and found that it had actually burst open, so great was the pressure from the inside.

Justice Putnam's First Wedding.

Justice Putnam performed his first marriage ceremony this morning, the bride being Miss Grace Walker, and the groom Mr. William A. Campbell, both of this city. The wedding took place at the home of the bride's parents on Jarvis street, only the immediate family being present.

MARTIAL AIRS

Streets Lined With People To Greet Gov. Warner and Party,

FRIST INFANTRY MADE A SPLENDID APPEARANCE-- U. R. K. P. APPLAUDED.

This morning the city is looking its very best and the hundreds of visitors are enjoying themselves. The city is very prettily decorated, the merchants, citizens, high and low, having given a great deal of attention to little details. Every electric car brought in a load and at the time of this writing they are still coming.

On Congress and adjacent streets there is the greatest animation, the sidewalks being crowded with happy Home Comers waiting for the military parade.

The committee appointed by the mayor to go to Detroit to meet Gov. Warner and other distinguished guests, left on time and came back, arriving in Ypsilanti at 12:15.

The special train on the Michigan Central came in on time, and the troops looked fine in their military uniforms. On debarking at the Michigan Central depot Col. Kirk assumed command. The First Infantry band accompanied them, in its full strength, and will stay here until to-morrow night.

The company from Ann Arbor came in on a special car and with Company L, of this city, marched to the depot and joined the rest of the regiment. The streets were lined with people, not only after they had formed, but all the way to Hamilton and Congress streets, where the parade was formed. The Uniform Rank, Knights of Pythias, under command of Capt. Fred Wood, with the Chelsea band, marched to where the parade had formed, looking fine in their new uniforms. They were given a good hand along the line.

Merry Party at Luncheon.

A merry party sat down with the governor to luncheon at the Occidental at noon and Landlord Shuts made it very pleasant for all. In the party were Gov. Warner, Mayor Holmes, of Alpena; Hon. Alfred Lucking, of Detroit; Col. Leland, Mayor Todd, of Jackson; Chief of Police Doyle, of Jackson; Mayor Gaudy, Capt. E. P. Allen, Hon. Samuel Post, Dr. James M. M. Read, Frank T. Codrington, C. E. King, Postmaster Lister, Rev. Wm. Gardam and Robert Hemphill, Jr. After luncheon some of the above took a carriage ride around the city, but were back in time to join the parade.

The balloon will go up to-morrow at 4:30 p. m. standard at the corner of Michigan and Hamilton. The aeronaut has made two successful ascents. To-day's ascent, while not as high as yesterday's, was a good one, and the descent was safely made. Soon after cutting loose from the anchor a rip appeared in the apex of the bag. As soon as this was discovered the "King of Clouds" cut his parachute loose and made the drop, landing within a block of the place from where he started. He promises a corker for to-morrow.

At 1:45 the members of Company I, M. N. G., of Ann Arbor, reached the city on a special car, accompanied by Maj. Granger. At the waiting room they formed in fours and led by their officers marched to the Michigan Central to meet the First Regiment. The company was led by the Plymouth band and were followed by the signal corps, M. N. G., of Ypsilanti, and the Chelsea band. The men made a fine appearance on the street in their khaki uniforms, with shining guns and buttons. At the station they met the First regiment and First Regiment band and escorted them to the head of the parade line.

The ideal weather and the general air of hospitality and good fellowship has awakened old Ypsi and the spirit of the day is one of happiness.

Every down town street is crowded with visitors and sightseers, while the presence of the governor and the uniformed military element lent a dignity to the occasion, which places the cele-

bration beyond the carping criticism of those who would belittle the occasion.

PARADES WILL BE ENTIRELY DIFFERENT.

Many Hearty Handshakes Renewed Old Friendships.

The two parades will differ materially from each other, but both will appeal to the people. While to-day's parade features the military element, to-morrow night's parade will be a kaleidoscope of sights and colors. The floats are unusually attractive and at least two dozen will be in the evening parade. Nine of these will represent different epochs of the history of city while the rest will be allegorical and unique.

During the parade the display of fireworks will be unstinted and everything will be done to make the event a memorable one.

Among the floats will be those illustrative of the periods of 1809, 1823, 1838, 1849, 1861, 1880, 1898, 1904 and 1905. These will all be unique and interesting, but in order that they may be a surprise to the visitors little is being said of just what these will be. The societies are vying with each other in their efforts to make their respective floats a success. The merchants are preparing some pretty and attractive floats and the dry goods merchants will have a beauty in the procession.

A committee has been appointed to see that all the houses and stores along the route are properly illuminated during the parade.

NOTES.

"The King of the Clouds" made a fine ascension yesterday and attracted a large crowd.

It is worth a visit to headquarters on Pearl street to see the greetings of some who have not met for a quarter of a century.

This afternoon all the streets down town are crowded. The weather is as beautiful as if made to order and Home Coming is a great success.

"It does me good to see that you have no fakirs doing business here at such a time as this," remarked a gentleman from the east to the Daily Press this morning.

Hon. Samuel Post met with a slight accident in Detroit this morning, but to show his friends in Ypsilanti that he was all right he danced a jig in the Occidental hotel parlors.

"Can you tell me why some one here who corresponds for the Detroit Tribune and Detroit News find so much satisfaction in 'knocking' our Home Coming?" was the conundrum propounded to the Daily Press this morning by one of Ypsilanti's leading business men.

James F. Dillon, one of Detroit's best detectives, is here and will remain over until to-morrow. Mr. Dillon has a remarkable memory for faces and woe betide the man who shows up here expecting to do a little business that is somewhat shady. Up to the present he has had nothing to do.

Paul S. Richards, a fine looking old gentleman, was a caller at the Daily Press office early this morning. Mr. Richards' father came here in 1826 and settled in Superior. In 1832 the father sent Paul to school in this city. At that time Coe Spencer was teacher and Emily Millington his assistant. They were married a little later. Mr. Richards says that Mr. Spencer had 150 scholars.

THURSDAY, JUNE 22, 1905.

IS IT SPITE?

The Detroit Evening News, in its yesterday's edition, printed the following statement:

Ypsilanti, Mich., June 21.—On the eve of its Home Coming celebration Ypsilanti finds a lot of unwelcome visitors on its hands. To-day about twenty crooks and bunco game men are reported to have arrived. Some of them are offering \$50 to the saloon men for the privilege of setting up their games in their bars.

The article was headed "Crooks Galore Flocking into Ypsilanti to Fleece the Natives."

Here is what Marshal Gage says: "As far as I know there is not a 'crook' or a 'bunco game man' in the city. Last night was as quiet a one as I have known in Ypsilanti."

The correspondent who would send in such an item as the above for the sake of the few cents received for it must hold himself or herself very cheap, and at the same time have no respect for the truth.

Such shaking of hands, greeting of old friends, as there were after last night's Home Coming meeting has not been seen in Ypsilanti for many a day, and the general praise bestowed on the city for its beauty and its cleanliness must have weight in the future. We can all congratulate ourselves that we have the pleasure of living in the Queen City.

Gov. Warner was given a fitting reception to-day on his first visit to Ypsilanti, and the city feels proud to know that it has him within our gates. Give him such a good time he will want to come again. The governor knows what a good farming country is and spoke highly of old Washtenaw.

Just give "Bill" Lewis a little credit for the fine appearance of our streets. He deserves it.

COMES QUICKLY

Don't Have to Wait for Weeks. An Ypsilanti Illustration.

Waiting is discouraging.

Prompt action pleases everybody.

A burden on the back is a heavy weight.

Hard to bear day after day.

Harder still year after year.

Lifting weight, removing burden, Bring appreciating responses.

Ypsilanti people tell of it.

Tell how it can be done.

Tell of relief that's quick and sure. Here is a case of it.

Arthur Reeves, of 109 1/2 Congress street, the well known harness-maker, says: "For some time I had a dull pain in my back and side. Having seen so many cases of severe kidney trouble I thought it wise to do something at once, so I got a box of Doan's Kidney Pills."

AN INVENTOR.

BY L. LUMLEY.

When you have known a man the better part of five minutes it is only natural that you should feel impressed in some way (the exact way is rather a matter of temperament) when he calls you "my dear fellow" and insists that you really must drop in and see him.

I did. The inventor lived in a curious little surprise in architecture in a northwest suburban road which had no end. For several minutes I searched the inventor's door and doorknob for a knocker or bell, but nothing could I discover beyond a brass letter box opening, which was evidently in the process of adjustment; indeed, at that moment footsteps sounded from within, followed by the use of tools upon the door.

I tapped with my umbrella; the door opened and the inventor, beaming through his spectacles, grasped my hand.

"Capital, capital!" he exclaimed, placing a screwdriver in the outside pocket of his velvet jacket and a pair of pliers through a buttonhole.

"You're just in time," he went on. "Now, you see that letter box—nothing unusual about it, as a letter box, you would say?"

I looked at the object in question. It appeared to me exactly like thousands of other cheap brass affairs one sees upon the suburban door. I conveyed this impression, suitably modified, to the inventor, who chuckled low with delight.

"Well, now," proceeded the inventor hugging himself with enjoyment, "with my letter box—by the way, I have named it the 'postvenitograph'; rather comprehensive, eh?"

"Extremely neat," I said.

"So it is; so it is," he agreed, still beaming; "post—post; venit—has come; graph—write; the thing explains itself. But you would like to see it in action?"

"I should consider it a great honor," I assured him. He appeared to feel assured.

"I don't mind telling you," he intimated, kindly, "that I believe it will be taken up by all the principal firms in the world."

I appeared suitably astonished, and the inventor proceeded to close the door, thereby revealing several wires that rose through a tube by the wainscot and engaged an iron lever upon which was fastened, by means of a wire, what looked like the receptacle from a pair of scales. Above this was a black box.

"Now," exclaimed the inventor, who had been running his finger along the mechanism tenderly, "perhaps you would just act as postman for half a minute?"

I tried to look as much like a postman as I could at so brief a notice.

"Let me see. You will want a letter," explained my host.

I handed him in turn letters of several sizes, old but serviceable; still the inventor did not seem satisfied. Suddenly, however, his face brightened, and, taking the pliers from his buttonhole, he placed them in the longest envelope and closed it carefully.

"Aha!" he exclaimed, triumphantly, handing me back the package, "now you are all right with your letter. I want you, quite in the usual way, you know, to enter the garden gate, walk up the steps, thrust your letter into the box—then wait. I think that's quite clear!" he concluded, holding open the door for me to go out, and closing it before I had time to assure him that I had thoroughly grasped the idea.

I hesitated a moment at the door; then, setting my teeth firmly, I dropped the pliers through the opening for letters. I cannot say precisely what I had anticipated, but I know that, immediately after the act, I felt as a nervous man does when he takes a second pull at the trigger of a gun that has missed fire.

"Was that you whistled?" called the voice of the inventor from within.

"Is everything going off all right in there?" I inquired, in my turn, through the keyhole.

"Simply drop it in the box in the ordinary way," requested the inventor—peevishly, I thought.

"I have," I said, shortly.

"What have you done, my dear sir?" persisted the inventor, with rising irritability.

"Posted the letter!" I shouted.

The door opened slowly and the inventor, on his knees, shuffled backwards with it. He took not the slightest notice of me, but proceeded to pat his pockets one after the other, and then to grope about the floor, peering under the chairs, moving out the hat stand again.

THE CHILDREN'S VILLAGE.

Outcome of Splendid Work for Neglected Children in New York City.

On April 16 an event of peculiar and significant interest occurred in New York—the farewell service of the New York juvenile asylum.

The asylum, states Youth's Companion, was founded in 1851, and in the half-century and more of its existence 39,000 neglected children have been cared for within its walls. It is a noble record. What it has meant to the city of New York and to the whole country no human calculation can ever measure. In a message sent to it four years ago, President Roosevelt wrote: "I want to tell you that some of the highest and best men I know, in professional, commercial and public life, have come from your institution and others like it."

Yet magnificent though their work has been, the age of the great asylums is passing, and their disappearance reveals the deepened insight of modern philanthropy. Half a century ago an institution that fed and clothed neglected children, that cared for them when they were ill and equipped them in some fashion to earn their own living, was regarded as giving them all that the largest demand could require. Those great rights of childhood, freedom, opportunity for individual development, above all, the need of "mothering," few had considered, and none supposed attainable for these forlorn waifs of life.

Yet these are precisely the things which the larger charity of the day is making beautifully possible. The removal from the Juvenile Asylum of New York to the Children's Village of Dobb's Ferry is one step in the process. Instead of huge, unhome-like buildings, there are cottages, each with its own gardens, its own family circle; above all—name of blessed promise—its own housemother. So at last the little lonely ones of earth are entering their kingdom.

ORIGIN OF SOME SLANG.

According to the Statement of an Imaginative Genius Which Sounds Reasonable.

"Here's where I butt in," said the goat, making for the children, according to the New York Sun.

"I'm getting it in the neck," grumbled the bull, as Ursus gave him another twist.

"Come off your perch," growled tabby, making another spring at the cage.

"I'm in the soup," gasped the oyster, as he dropped to the bottom of the plate.

"You're a bird," said the fox, as he gobbled up another hen.

"Don't try to string me," said the rattler to the black snake, coiling himself into a plumbline.

"It's a lead pipe cinch," said the rat, gnawing his way through another piece of pipe.

"I've got the drop on you," shrieked the hawk, as he landed on another chicken.

"Things are coming my way," said the bear, dodging another bullet.

"My goose is cooked," said the wild gander, dropping to the ground with a broken wing.

"Quit your kidding," exclaimed the fish, as the bait dropped into the water.

"Those fellows are nutty," said the rabbit, pointing to the squirrel family eating lunch.

"Stuck again," cried the fly, alighting on the sticky paper.

"I can see my finish," murmured the lamb as he entered the slaughter pen.

PREFER NIGHT TRAVEL.

Left to Their Own Inclination Hogs Make Their Journeys During the Cool of the Night.

The Arizona Republican says the hogs were corn fed and exceptionally fat. They were started for town during the day, but by the time they reached a point a little less than a mile from home many of them were unable to continue the journey, and the march was stopped. During the cool of the evening they were taken back home.

A hog is a foolish thing, and in going a few miles many frequently take unnecessary steps, thus making the distance much longer than it really is. This partly accounts for their becoming so hot such a short way from their starting point. They were allowed to spend the night at home, but the next night the trail was taken up again.

Rheumatism

Like Neuralgia, is now known to be a nervous disease. The kidneys become weak through lack of nerve energy, and fail to filter the uric acid from the blood; this acid attacks and burns the nerves and muscles, and consumes the oil in the joints, producing inflammation, fever, swelling—pain.

To cure Rheumatism, then, you must restore the kidney nerves and muscles, and neutralize the effect of the acid upon the joints and tissues with Dr. Miles' Restorative Nerve, a nerve medicine, which has made many cures of this painful disease. Nerve strengthens the kidney nerves and increases the circulation, and relief is assured.

"Before I took Dr. Miles' Nerve, I had been looking for a cure for Rheumatism for 25 years. The last time I was laid up for several months, could not get out of bed or set foot on the floor. I tried remedies to rub in, to drink, doctors' prescriptions, etc., but none of them had any effect. One day I read about Dr. Miles' Nerve and got a bottle. After the first dose I had a good night's rest, and after taking half a bottle the pains disappeared, and I went out and walked all around the town. In a week I went to work, and was perfectly cured, but continued to take the medicine for a time, to make sure the pains would not come back."

THOS. LONG,
313 N. Chatham St., Racine, Wis.

Dr. Miles' Nerve is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

IS IT SPITE?

The Detroit Evening News, in its yesterday's edition, printed the following statement:

Ypsilanti, Mich., June 21.—On the eve of its Home Coming celebration Ypsilanti finds a lot of unwelcome visitors on its hands. To-day about twenty crooks and bunco game men are reported to have arrived. Some of them are offering \$50 to the saloon men for the privilege of setting up their games in their bars.

The article was headed "Crooks Galore Flocking into Ypsilanti to Fleece the Natives."

Here is what Marshal Gage says:

"As far as I know there is not a 'crook' or a 'bunco game man' in the city. Last night was as quiet a one as I have known in Ypsilanti."

The correspondent who would send in such an item as the above for the sake of the few cents received for it must hold himself or herself very cheap, and at the same time have no respect for the truth.

Such shaking of hands, greeting of old friends, as there were after last night's Home Coming meeting has not been seen in Ypsilanti for many a day, and the general praise bestowed on the city for its beauty and its cleanliness must have weight in the future. We can all congratulate ourselves that we have the pleasure of living in the Queen City.

Gov. Warner was given a fitting reception to-day on his first visit to Ypsilanti, and the city feels proud to know that it has him within our gates. Give him such a good time he will want to come again. The governor knows what a good farming country is and spoke highly of old Washtenaw.

Just give "Bill" Lewis a little credit for the fine appearance of our streets. He deserves it.

COMES QUICKLY

Don't Have to Wait for Weeks. An Ypsilanti Illustration.

Waiting is discouraging. Prompt action pleases everybody. A burden on the back is a heavy weight.

Hard to bear day after day. Harder still year after year. Lifting weight, removing burden. Bring appreciating responses. Ypsilanti people tell of it. Tell how it can be done. Tell of relief that's quick and sure. Here is a case of it.

Arthur Reeves, of 109½ Congress street, the well known harness-maker, says: "For some time I had a dull pain in my back and side. Having seen so many cases of severe kidney trouble I thought it wise to do something at once, so I got a box of Doan's Kidney Pills at Rogers, Weinmann, & Matthews' drug store. The pills simply worked wonders, for it was only a short time till the trouble passed out of existence. I do not hesitate to recommend Doan's Kidney Pills to others troubled as I was."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

"Capital, capital!" he exclaimed, placing a screwdriver in the outside pocket of his velvet jacket and a pair of pliers through a buttonhole.
"You're just in time," he went on. "Now, you see that letter box—nothing unusual about it, as a letter box, you would say?"
I looked at the object in question. It appeared to me exactly like thousands of other cheap brass affairs one sees upon the suburban door. I conveyed this impression, suitably modified, to the inventor, who chuckled low with delight.

"Well, now," proceeded the inventor, hugging himself with enjoyment, "with my letter box—by the way, I have named it the 'postvenitograph,' rather comprehensive, eh?"
"Extremely neat," I said.

"So it is; so it is," he agreed, still beaming; "post—post; venit—has come; graph—write; the thing explains itself. But you would like to see it in action?"
"I should consider it a great honor," I assured him. He appeared to feel assured.

"I don't mind telling you," he intimated, kindly, "that I believe it will be taken up by all the principal firms in the world."

I appeared suitably astonished, and the inventor proceeded to close the door, thereby revealing several wires that rose through a tube by the wainscot and engaged an iron lever upon which was fastened, by means of a wire, what looked like the receptacle from a pair of scales. Above this was a black box.

"Now," exclaimed the inventor, who had been running his finger along the mechanism tenderly, "perhaps you would just act as postman for half a minute?"

I tried to look as much like a postman as I could at so brief a notice.
"Let me see. You will want a letter," explained my host.

I handed him in turn letters of several sizes, old but serviceable; still the inventor did not seem satisfied. Suddenly, however, his face brightened, and, taking the pliers from his buttonhole, he placed them in the longest envelope and closed it carefully.

"Aha!" he exclaimed, triumphantly, handing me back the package, "now you are all right with your letter. I want you, quite in the usual way, you know, to enter the garden gate, walk up the steps, thrust your letter into the box—then wait. I think that's quite clear?" he concluded, holding open the door for me to go out, and closing it before I had time to assure him that I had thoroughly grasped the idea.

I hesitated a moment at the door; then, setting my teeth firmly, I dropped the pliers through the opening for letters. I cannot say precisely what I had anticipated, but I know that, immediately after the act, I felt as a nervous man does when he takes a second pull at the trigger of a gun that has missed fire.

"Was that you whistled?" called the voice of the inventor from within.
"Is everything going off all right in there?" I inquired, in my turn, through the keyhole.

"Simply drop it in the box in the ordinary way," requested the inventor—peevishly, I thought.

"I have," I said, shortly.
"What have you done, my dear sir?" persisted the inventor, with rising irritability.

"Posted the letter!" I shouted.

The door opened slowly and the inventor, on his knees, shuffled backwards with it. He took not the slightest notice of me, but proceeded to pat his pockets one after the other, and then to grope about the floor, peering under the chairs, moving out the hat stand and pulling up the mats.

"Can I do anything to help you?" I asked, at length, thinking that he was seeking the mainspring of his invention.

"Eh, what? Confound 'em!" muttered the inventor, looking up for an instant.

"Lost anything?" I ventured.
"Of course I have!" he replied, sarcastically. "How can I possibly adjust the mechanism without my pliers—pliers I have worked with for 15 years, pliers!"

After I had interrupted and we had succeeded in forcing open the black box and recovering both his and my property the inventor beamed as brightly as ever.

"I'm not certain whether it is the hydraulic balance in the basement, the electric contacts, the ejector or the spring tension under the floor that has got a little disarranged," he explained, cheerfully, "but it's quite a trifling matter, and, if you will give me the pleasure of staying to dine, we might run over the whole thing afterward."

But I remembered that I was engaged to go to another pantomime.

disappearance relieved me. The Press Office is open Wednesday and Saturday until 8 o'clock to accommodate those who may wish to pay subscriptions, leave copy for Want column, etc.

ORIGIN OF SOME SLANG.

According to the Statement of an Imaginative Genius Which Sounds Reasonable.

"Here's where I butt in," said the goat, making for the children, according to the New York Sun.

"I'm getting it in the neck," grumbled the bull, as Ursus gave him another twist.

"Come off your perch," growled tabby, making another spring at the cage.
"I'm in the soup," gasped the oyster, as he dropped to the bottom of the plate.

"You're a bird," said the fox, as he gobbled up another hen.

"Don't try to string me," said the rattler to the black snake, coiling himself into a plumbing.

"It's a lead pipe cinch," said the rat, gnawing his way through another piece of pipe.

"I've got the drop on you," shrieked the hawk, as he landed on another chicken.

"Things are coming my way," said the bear, dodging another bullet.

"My goose is cooked," said the wild gander, dropping to the ground with a broken wing.

"Quit your kidding," exclaimed the fish, as the bait dropped into the water.

"Those fellows are nutty," said the rabbit, pointing to the squirrel family eating lunch.

"Stuck again," cried the fly, alighting on the sticky paper.

"I can see my finish," murmured the lamb as he entered the slaughter pen.

PREFER NIGHT TRAVEL.

Left to Their Own Inclination Hogs Make Their Journeys During the Cool of the Night.

The Arizona Republican says the hogs were corn fed and exceptionally fat. They were started for town during the day, but by the time they reached a point a little less than a mile from home many of them were unable to continue the journey, and the march was stopped. During the cool of the evening they were taken back home.

A hog is a foolish thing, and in going a few miles many frequently take unnecessary steps, thus making the distance much longer than it really is. This partly accounts for their becoming so hot such a short way from their starting point. They were allowed to spend the night at home, but the next night the trail was taken up again.

This time after dark, or rather after sundown, for it was almost as light as day, from the moon. The hogs seemed to be delighted with the new order of things, and the way they capered to town was a caution. It was almost all the drivers could do to keep up with them. They gave no trouble whatever and reached the shipping yards in fine shape.

Caustic Comment.

"Your old friend Barnes Tormer made his debut in vaudeville last night," said the first actor.
"Yes, it was a monologue, wasn't it?" asked the other.

"Not exactly. He intended it to be, but the audience chimed in with a few choice remarks before it got fairly started."—Philadelphia Ledger.

Why suffer with your stomach, kidneys and liver when Hollister's Rocky Mountain Tea will make you well. If taken this month, keeps you well all summer. 35 cents, Tea or Tablets. For sale by Smith Bros., City Drug store.

CITY IN BRIEF

Morris Smith, of the Cleary college, left yesterday to accept a position at Newberry, Mich.

Dr. J. C. Garrett has been suddenly called out of the city by a death in the family. He is not expected to return until the last of next week.

The Normal library will be open mornings only for the remainder of the week. During the six weeks' summer school, however, it will be open as usual during the entire day.

The Young People's League of the Presbyterian church, will give an ice cream social Saturday evening on the parsonage lawn, corner of Adams and Ellis streets. Ice cream and cake will be served.

The names of Woodruff park, Gaudy park and Post park have been suggested for the two parks of the city which are unnamed. The former for the pretty little park opposite the school of the same name, and the two latter for the latest addition to the park system of the city.

A corps of fifty professors and instructors will compose the summer session of the Normal college, which will begin next Monday morning. Ten of these are full professors, twenty are instructors and the remainder are assistants and teachers in the training school.

"Ike" Davis' ears must burn to-day. This morning, in an endeavor to keep just one short block on Pearl street neat and clean, an effort was made to close the street, the Home Coming committee having received such permission from the Common Council. "Ike" didn't like to think that he didn't own the town, and just threw the barrier down.

The Lady Macabees of Queen City have will give a basket picnic at the Prospect park all day Friday. All ladies are invited to come and bring their lunch baskets. Lunch will be served at 1 o'clock. The program will be at 2 o'clock. Mrs. Frances Burns, great lady commander, will be present and also Dr. Holden, of Detroit, great medical examiner. A reception committee will meet the guests and it is hoped a large number will be present. All surrounding hives are invited.

Energy all gone? Headache? Stomach out of order? Simply a case of torpid liver. Burdock Blood Bitters will make a new man or woman of you.

THE CONTROL OF MOROCCO

A Subject Which Is Straining Diplomatic Relations Among European Powers.

For a long time past the ambitions of the French, British and Spanish have clashed in Morocco. France desires to control northwestern Africa, but Spain has interests in Morocco, and the British have long objected to the extension of the boundaries of French Algeria to the west. About a year ago, says Youth's Companion, an agreement was made between Great Britain and France, under which the British virtually consented to a French protectorate over Morocco, but on what terms has not yet been disclosed.

In these negotiations the sultan of Morocco was not consulted. Indeed, the announcement that the agreements had been made surprised the cabinets of Europe.

Last March France, in pursuance of the treaty, asked the sultan to agree to a plan under which he should deal with foreign powers through French agents. Before he had replied to the demand the German emperor visited Tangier and made a speech, in the course of which he said that he would always deal directly with the sultan, and would not allow any other power to act as an intermediary, as he recognized the sultan as an independent sovereign. He wished to protect the commercial rights of Germany. The emperor instructed his minister to negotiate a treaty which should secure to Germany all the privileges enjoyed by the most favored nations.

It is useless to predict the outcome of this refusal of Germany to recognize the right of the French to assume a protectorate over Morocco, but it is likely that the disagreement will be settled through ordinary diplomatic channels rather than by an appeal to force.

ENGLAND'S POOR-TAX BILL.

System of Providing for the Indigent of All Classes Is Expensive.

The operations of England's poor-tax bill, designed for the relief of the poor of all classes in England and Wales, as reported to the state department by United States Consul Swalm at Southampton, show that during the last half of 1904 there was expended "in maintenance" \$7,972,790; for "out relief," \$7,699,740; making a total of \$15,672,530, an increase of \$440,000, as compared with similar expenditures for the corresponding period of 1903. In addition to the sum named the cost for care of insane poor, in asylums, was \$5,784,510, for the same half year; or a general total of \$21,457,040 for the half year. For the year the charge easily reaches \$42,000,000.

On July 1, 1904, the number of persons in England and Wales in receipt of poor relief (excluding pauper lunatics) was 754,046, an increase of 24,804 over the number on the corresponding day in 1903.

"This plan," says Consul Swalm, "of maintaining the children of the poor—or such as may be in the poor-houses or 'unions'—in cottages and homes of that character, is happily finding a very general adoption, no less than 128 'unions' now maintaining the children away from the pauperizing effects of poorhouse associations. The county of London paid out 72 cents per head of its population for the half year on poor account."

THE PITY OF IT.

BY MARY PEABODY SAWYER.

"But it must be done, William," said his wife, her head slightly raised and her gray eyes sharp with suppressed excitement.

"I should be dreadfully mortified not to do as much for Elise as Charley does for his children. Well, not exactly as much in every way, no, of course, we really couldn't expect to have so much jewelry and as many new frocks. But to have Elise look old-fashioned and not have suitable things for her little parties—why it is positively embarrassing to her and humiliates me."

William Soliday avoided his wife's gaze, and methodically arranged his necktie. He was a plain man, with a kindly smile when he was not disturbed by his ambitious wife and daughter.

"Well, William, can't you tell me whether you can let me have \$200 or not this week?"

"I don't see how we can, Eliza. I've had a hard winter at the store and a good many accounts overdue. I wish I could make as much money as Charles, but I can't seem to do it, anyway. He is a good talker and smart. You know, Eliza, that I've worked hard for the last 25 years, early and late."

"Oh, I don't accuse you of being lazy," remarked Mrs. Soliday, tartly; "what I would like to see is something to show for all your work. Charles don't get to his office till nine and is always through at five, and makes at least a hundred dollars a week in salary and commissions."

"I'll tell you right now, Eliza, that even though Charles is my cousin, I would not be in his line of business for a thousand a week. It's no use to continue this talk any longer, Eliza. I hope to be able to supply you and Elise with all the necessaries of life, and a little more, but as for fitting out Elise so she can run around with the set that her cousins belong to, I cannot even attempt it."

This closed the conversation for that morning, and while Mrs. Soliday sat in her room finishing her daughter's graduating gown, her mind dwelt bitterly on her cramped life with its petty economies.

She had really loved William Soliday, 30 years ago. He was a clerk then, in her father's store, and a genial, honest young fellow. But when the business was his, he did not seem to know just how to make it pay. He bought a good line of stock, and he had to sell at a close margin to compete with the cheap articles displayed by his rivals. Then he paid his help a fair price, and his roomy, well-ventilated store cut still deeper into his profits.

That day Mrs. Soliday spent a few hours with her sister, who lived out in the suburbs. Returning home in the late afternoon, she was obliged to sit in a closely-crowded car, and her eyes were startled by headlines in a special edition of an evening paper: "Charles Soliday Arrested. About to Escape with his Plunder. Denied wrong-doing, but finally broke down and confessed."

Mrs. Soliday felt her heart stop beating for a moment, then plunge like a runaway horse. Charles Soliday, whose wife and daughters she had envied—she could not believe her own eyes. Mrs. Soliday was too excited to remain in the car when it approached her locality, so signaling to the conductor, she left the car and walked rapidly towards her home.

Hurrying into the house she was met by Elise, who had heard the news. The girl was as excited as her mother, and they talked over the astonishing situation.

"Isn't it terrible for Bertha and Bernice?" said Elise. "They didn't come to school to-day, and the girls said that their mother had hysterics and fainting spells all day. There's father coming now."

"Tell him I am upstairs and I want to speak to him right away," said Mrs. Soliday, as she hastened out of the room.

"Oh, William, it's more than enough," she began.

"There, Eliza, don't take on so," said her husband, dropping heavily into a big chair, and taking the trembling woman in his arms.

"But to think what Charles has done—and where he is, and where you might have been if—" here she was unable to go on.

"Don't cry so, Eliza. It will be all right in time," continued Mr. Soliday, patting his wife's shoulder and hardly realizing what he was saying.

"Oh, but William, I would rather live plain, and not have new things and know that my husband was an honest man."

"Now, Eliza, just listen a minute," said William Soliday. "I had a chance

MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on like a parasitic germ will prosper, is like scooping water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ. Newbro's Herpicide does this because it is specially made to do that very thing. When the germ is removed, the hair has no choice but to resume healthy growth and beauty.

Even so sane a people as the ancient Greeks came pretty near worshipping a stone—the "omphalos" or center of the earth at Delphi. The Romans set up a stone of great consequence in Rome, but for purposes of measurement, not worship, and so the "London stone" of to-day is used.

This closed the conversation for that morning, and while Mrs. Soliday sat in her room finishing her daughter's graduation gown, her mind dwelt bitterly on her cramped life with its petty economies.

"Oh, but William, I would rather live plain, and not have new things and know that my husband was an honest man."

"Now, Eliza, just listen a minute," said William Soliday. "I had a chance to make \$50 to-day; that is, I received it on an old account that I never expected to be paid. If you want it to buy some pretty things for the little girl—"

"Oh, William, it's more than enough," returned his wife. "She will only need a part of it, and I want you to have some for yourself. I can't have my good man looking shabby," she ended, with a slight smile around her mouth and her husband was too wise to object.

Among the lovely young girls who were graduated, there was none more bewitching than Elise Soliday, in her simple gown and without any jingling trinkets. The Soliday twins were not there, and with their withdrawal from the class, the element of extravagance which threatened to be the dominant feature was eliminated. In girlish fashion the swing of the pendulum was toward extreme simplicity of dress, to the relief of those whose means were limited to a small outlay.

"Our Elise was the prettiest girl in the class," said Mrs. Soliday to her husband that night.

"How could she help it—with such a mother," he replied without a moment's hesitation.—Boston Budget-Beacon.

DOINGS IN SOCIETY

A pretty but very quiet wedding took place last night at St. Luke's church, the bride being Miss Mary Johnson Clark, of Winchester, Va., a sister of Mr. J. P. Clark, general manager of the D. Y. A. A. & J., and the groom Mr. Theo. Megarden, of Smithport, L. I. The ceremony was at 6 o'clock, the Rev. William Berman officiating. Following the ceremony, at which but ten guests were present, a wedding supper was served at the home of Mr. and Mrs. Clark on Woodward street, covers being laid for eight. A huge floral bell hung over the table and the decorations were appropriate to the occasion. Those present beside Mr. and Mrs. Clark and the bridal couple were Rev. and Mrs. Gardam and Mr. and Mrs. D. L. Quirk, Jr.

Miss Genevieve McMullen pleasantly entertained twenty of her friends yesterday afternoon at her home on Perrin street in honor of her ninth birthday. The afternoon was spent in playing games and a dainty supper was served.

Smart Dressers

Young Men are, as a general thing, the smartest dressers.

The up-to-the-minute Young Man is a sort of a lexicon of clothes style and correctness.

He knows what's what and gets it.

But good fit, the newest colors, patterns, etc., aren't enough; for unless that snappy, jaunty appearance—characteristic of our excellent Tailor-Made Clothing—is there, isn't what the Young Man wants.

Our success in pleasing Young Men is not just "luck." It's due to our knowledge of what the Young Man wants and our

ABILITY TO PROVIDE IT FOR HIM.

Then again, our prices are always reasonable.

Suits at from \$10.00 to \$15.00 that will at once appeal to the taste of the swell Young Dresser.

Did you ever notice how many Young Men come here for clothes? There's a reason for it.
